Sarawak Job: mstrinaism

Summary

Recent Computer Science Graduate with a Passion for Web Development.

I am a recent graduate with a Bachelor's Computer Science degree in Multimedia computing from UiTM Shah Alam, where I gained a solid foundation in programming and software development. During my studies, I completed several projects that involved building responsive web applications, working with JavaScript, HTML, and CSS. My internship experience at ** Company allowed me to apply my skills in a professional setting, where I collaborated with a team to develop user-friendly features and enhance website functionality.

Skills

Programming Languages: Java, Python

Web Technologies: HTML5, CSS3, Bootstrap

Database Management: SQL (basic knowledge)

Soft Skills: Strong communication, adaptability, teamwork, problem-solving
